THERE'S NO COMPARISON

VIAGGIO HARDWARE SETS ITS STANDARDS ABOVE AND BEYOND

(Denver, CO - June 23, 2021) Consumers will find plenty of options in the door hardware marketplace these days, but the quality and beauty offered by Viaggio Hardware is truly a step above the industry standard. The Viaggio brand is known for exceptional craftsmanship, thoughtful design features and amazing durability. Each piece is carefully constructed from solid forged brass and precision-polished to produce a flawless finished product that is certain to be a lasting and valued addition to any home.

Attention to the smallest detail is an important part of the Viaggio brand. Their Concealed Screw Mechanism (CSM) cleverly hides all installation hardware. The completed look is seamless with no visible fasteners to distract from the beautiful array of polished and matte finishes. CSM is a luxurious standard on all privacy and passage sets and just one example of the Viaggio commitment to superior quality.

Viaggio products are engineered for lasting performance, providing unlimited hassle-free use cycles. Their levers offer a 28-degree turn radius as opposed to the traditional 55. This provides a greater ease of use and a smoother, more controlled turning experience. The tighter turning rotation makes Viaggio levers a smart choice for multi-generational households or in circumstances where accessibility is key.

With an eye for innovative design, Viaggio offers an extensive selection of contemporary door hardware inspired by the iconic architecture of Milan and northern Italy. The company centers their manufacturing headquarters in the heart of Europe and blends exceptional engineering and artistry to create their extraordinary product line. Viaggio incorporates a fresh, modern aesthetic with organic textures and shapes to create sleek, sophisticated hardware of undeniable quality and beauty. All Viaggio hardware is backed by an industry-leading Lifetime Warranty to guarantee years of enduring use and enjoyment.
