GOING GRAY

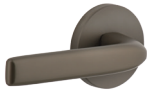

VIAGGIO HARDWARE INTRODUCES TRENDY AND VERSATILE TITANIUM GRAY FINISH

(Denver, CO. May 4, 2021) The color gray is having a moment as one of the most in-demand hues in interior design. It's showing up everywhere, from furnishings to fabrics to flooring. Viaggio Hardware is pleased to present their newest finish option that meets this trend head-on. Called Titanium Gray, this beautiful shade is a unique choice for door hardware and a simple way to add elegant style to a room. Its warm undertones and effortless blending of gray and bronze make the overall look quite unique. Like a neutral canvas, the Titanium Gray finish is the perfect compromise for consumers who cannot decide between satin brass and matte black. It is refined and transitional yet edgy and modern, a versatile choice bound to complement any design space.

Viaggio offers the Titanium Gray finish on their entire line of luxury door hardware, including the textured Motivo collection, interior, and exterior sets, and even coordinating deadbolts. Each piece is carefully crafted from forged brass using a time-tested process that eliminates even the slightest defect or imperfection. The hardware is precision polished and then lacquered for amazing durability. Viaggio Hardware is produced in the heart of Europe by combining the best of engineering and artistry to create a truly exceptional product line. No detail is too small - even screw mechanisms are cleverly concealed with the company's Concealed Screw Mechanism (CSM) for a clean, seamless installation with no visible fasteners. All Viaggio hardware is backed by an industry-leading Lifetime Warranty for added peace of mind and lasting enjoyment.

For more information about the Titanium Gray finish or any other Viaggio Collection, visit viaggiohardware.com.
