

NOSTALGIC<sup>®</sup>  
WAREHOUSE

# About Nostalgic Warehouse

Known for elegant styles and exceptional craftsmanship, Nostalgic Warehouse uses only hot-forged brass for solid, durable construction that can accurately display the intricacies of vintage design. This distinctive hardware is offered in eight beautiful finishes, including lacquered and “living” finishes which develop a warm patina with time and use. An array of plates and knobs are available for ultimate customization, and Nostalgic offers historically accurate mortise locks with most styles.

Restoration contractors, antique dealers, homeowners, designers, builders and architects recognize Nostalgic Warehouse as the market leader in authentic period style.

Antique Brass

**“ Since we painted our interior doors a creamy black, we were looking for a clean white knob for them. Nostalgic Warehouse had the PERFECT option for us, and we have continued to use them in our other projects. ”**

**– Angela Knutson**

“ I fell in love with the  
hammered Craftsman  
Knobs. I adore that  
handcrafted texture. ”

– Sarah Gibson

“ I love the historic styles!  
I try to use timeless  
and classic materials  
throughout my home...  
nothing permanent  
(like hardware)  
should be too trendy.”

– Sarah Gibson
