(Denver, CO) Fans of vintage style are loving the latest interior design trends which continue to reflect high demand for period-inspired décor. Naturally, Nostalgic Warehouse is a leader in this area as a brand known for heirloom quality hardware. Adding vintage hardware is such a simple and effective way to elevate any design space, creating big visual impact without overextending the budget.

Retro chic has been riding high in recent years. The Coastal Grandma look and Grand Millennial Style have been in particular demand. Both emphasize a cozy, homey environment that mixes traditional pieces with modern elements. Think of rich woods, patterned fabrics and metallic accents. Nostalgic Warehouse offers several collections that perfectly mirror these looks.

- **Victorian Collection:** This is ornate vintage at its best. The Victorian era is known for its profuse ornamentation and intricacy. Nostalgic Warehouse captures that look to the smallest detail with distinctive curvilinear embellishments. Each piece is meticulously crafted for an authentic period look and feel that is perfect for today's homes that want an Old World vibe.

- **Egg & Dart Collection:** This classic line delivers grand style in no uncertain terms. It is notable for its distinctive repeating border and beautiful floral crowns. The effect is elegant and dramatic, a fitting choice for spaces where the goal is to make an unforgettable impression.

Art Deco continues its reign among top design trends. This look is all about glamour and luxury, emphasizing rich colors and decadent detailing. Design symmetry and streamlined shapes are hallmarks of this style, along with bold geometric patterning. Nostalgic Warehouse captures the best of these elements with hardware that fits in perfectly with this popular style.

- **Deco Collection:** This eclectic line brings a modern twist to old Hollywood glam for a look that is sophisticated and fun. Clean lines and simple shapes add interest and texture, striking just the right balance between classic and contemporary worlds.

Another alternative to creating a vintage décor look is with timeless pieces that will never go out of style. Nostalgic Warehouse also offers a beautiful array of sophisticated hardware with clean lines and graceful curves, that pairs exquisite craftsmanship with exceptional design.

- **New York Collection:** The look here is clean and sophisticated with tailored lines and a modern sensibility. As one of the brand's most popular lines, this collection will never go out of style. Its timeless appeal is equally at home in the past as well as current times.
