Ring Size Guide

In order to find your perfect fit please make sure this guide is printed on A4 sized paper and scaled to 100%. Once printed, as an additional way to check the sizing is correct, please place a credit card on the line below, which should match the lines exactly.

4.5in 15.3mm	4.75in 15.5mm	5.25in 15.9mm	5.75in 16.3mm	6in 16.5mm	6.25in 16.7mm	6.75in 17.1mm
7.25in 17.5mm	7.5in 17.7mm	7.75in 17.9mm	8in 18.1mm	8.25in 18.3mm	8.75in 18.7mm	9.25in 19.2mm
9.75in 19.6mm	10.25in 20mm	10.75in 20.4mm	11.25in 20.8mm	11.75in 21.2mm	12.25in 21.6mm	12.5in 21.8mm

Measure by matching your ring

If you have an existing ring that fits you comfortably, place it on the printout to find your size.

On the occasion that your ring falls between two different sizes, we recommend choosing the larger size.

Place a credit card here

Measure your finger with provided ruler

We have created a ruler to make it easier to find your ideal size. Cut the ruler carefully and cut the line shown at the top to create a slit. In order to make sure that the ring size is correct, we suggest measuring your knuckle as well. This will ensure the ring can slip on and off your finger easily.

To obtain the most accurate measurement, it is recommended to measure at room temperature, when your hands are not unusually cold or too hot.
