

EasiMove

Air Assisted Patient Transfer

A COST EFFECTIVE SOLUTION FOR YOUR SAFE PATIENT HANDLING PROGRAM

Air assisted technology for patient transfer solutions was introduced over 25 years ago and has significantly assisted in the reduction of injuries to caregivers and patients alike.

The Easimove complies with international standards for flammability (CPSC 16CFR), breathability (ASTM E96) as well as various antibacterial activity such as Straphylococcus Aureus (ATCC 6538), Candida Albicans (ATCC 10231), Escherichia coli ATCC 8739

EasiMove Air Transfer Mat fits all existing air transfer mat pumps as well as providing it's own cost effective EasiAir Variable Air Pump.
