

VIVE 3 Wheel Mobility Scooter

MOB1025

The Vive 3 Wheel mobility scooter provides safe and stable mobility assistance. With a turning radius of only 2.9' the scooter easily maneuvers around corners. 8" flat-free tires traverse over smooth indoor and outdoor surfaces such as concrete, pavement, tile, and carpeting. The padded seat features flip-back armrests and the ability to swivel and lock in place. The front mounted storage basket disconnects for optional use. The scooter has a speed control knob that adjusts up to 3.7mph and has a range of up to 12.4 miles per charge. Quickly disassemble into four pieces for easy transportation. The heaviest piece is only 29lbs.

Best Economy in its class
