INSIDE THE BOX

- The MidWatch (Gold/Silver)

The dolphin insignia is engraved on the strap hook and the back casing of the watch where you'll also find the Tenacity Dick quote.

The logo for Tenacity, featuring a white circular emblem with a crosshair design inside, followed by the word "TENACITY" in a bold, white, sans-serif font.

The MidWatch was forged in the spirit of the vigilance, dedication and strength of those Sailors who fearlessly stood the "Mid Watch" while the others slept.

If the date is set between the hours of around 9:00 PM and 1:00 AM, the date may not change the following day.

MOVEMENT

Japanese Miyota 9015 Automatic

The Miyota caliber 9015 is a 24 jewel automatic movement. It is made in Japan and was first introduced in 2009. This is a premium automatic movement that has a desirable hacking function, and considered a workhorse movement.

Rotating the crown anti clockwise (while pushed all the way in) a few times will wind up the movement. Once you wear the watch and your arm keeps moving, it automatically stores energy to keep the watch ticking.
