

# NEW TO READERS? TEST YOUR EYES IN AN INSTANT.

Print out this page in A4 size.

Hold the eye test at approximately 40 cm (15") and read the text without glasses.

To find the prescription you need, pick the line you can barely read.

<b>+3</b>	Readers Copenhagen is high-quality reading glasses with a strong designation to our Scandinavian culture.
<b>+2.5</b>	Our Readers are a tribute to Denmark, the Danish design traditions and the stunning nature surrounding the pulsing capital.
<b>+2</b>	With a wide choice of timeless yet contemporary styles and affordable prices, you can choose several frames, so that you always have the right Readers for your look.
<b>+1,5</b>	Most of our Readers are unisex and thus suitable for both men and women.
<b>+1</b>	Grab your Readers and go explore.
<b>PLAN</b>	If you can read this, you do not need reading glasses but luckily these are also available as screen glasses to protect your eyes against blue light.

Note that different strengths may be required for different purposes and distances. For example, the distance to the computer screen may be greater than if you are reading a book, and you may therefore need reading glasses with lower strength for use with the computer.
