

## BV Powersports popular Go-Kart The Trailmaster 200 XRX

Take on the toughest terrain in style with the TrailMaster 200 XRX Go Kart with premium features including polished aluminum wheels, a digital speedometer/odometer, top mounted hunting lights and a bikini sunshade top! But it's not just for show. Underneath all that glitz is a rugged, tubular steel frame with top brush guard, side rails and an enclosed belly pan to take the abuse of harsh off-roading.

Power comes from a 4-stroke, single cylinder, air cooled 168.9cc, 11.1hp GY6 technology engine mated to an automatic CVT clutch for a 43 mph top speed and excellent low-end torque. There's enough horsepower to haul light loads on the rear utility rack or to pull light-duty trailers with the included ball hitch. Driving is effortless and fun with rack-and-pinion steering, convenient reverse shifting, easily reachable, dash-mounted controls and dual sport bucket seats with 5 point harnesses.

Drivers seat adjusts from 38 to 43 inches to the pedals while tilt steering tilts. Center and side mount mirrors, F&R hydraulic disc brakes, high/low beam headlights and turn signals add an extra measure of safety. The dual A-arm front and swing-arm rear suspension system provides excellent handling and maneuverability. The 200 XRX blazes new trails as the only 200cc GoKart on the market with this many nice features!

We have this model in red, blue, black, orange, green

## **200 XRX Specifications**

### **Engine Information**
