

Benelli E-Fold 500

We are here to introduce the Benelli E-fold 500: the light and convenient folded e bike. The E-Fold 500 has a 20.0 inch Aluminum alloy folding frame, light and convenient which reduces the storage area and can be put into your trunk. Saddle post height is adjustable: suitable for a person of 5'1 to 5'11 in height. It has two riding modes which can be switched: Power assisted hybrid + Pure electric throttle. The SHIMANO Derailleur 1x7 speed ACERA transmission is adopted to meet the riding needs of different road conditions such as flat road, climbing road and downhill road. The 500 watt motor has a large torque output of 45NM, strong climbing power. The front and rear Disc brakes ensure excellent braking performance. Equipped with 48V/10AH (504WH) lithium ion battery pack, the maximum battery life under economic mode can reach more than 24 miles

We have this model in black & green.

Benelli E-Fold 500

Key Specifications

- *Motor: 500W High Performance Rear hub motor*
- *Max torque: 45N.M*
- *Battery: 48V/10.5AH*
- *Max range: up to 24M @ for reference*
- *Sporty LED displayer*
- *Cycle Modes: Pedal power assist*
- *Charge time: 4-6hours*
- *Frame: Aluminum alloy 20inch*
- *Brake: front & rear Disc brake*
- *Tire: 20x3.0 off-road tires*
- *Front fork: Steel fork*
- *Derailleur: SHIMANO Altus 1x7 Speeds*
- *Wheel: aluminum alloy*
- *Chain: KMC*
- *Size: L63"XW23.6"XH47.2"*
- *Crate size: 63.4"X11.4"X30.7"*
- *NW/GW: 51 lbs /62 lbs*
