

Cheetah 6

The TrailMaster Cheetah 6 is a little bit smaller in size comparing to the Cheetah 8. It targets from 6 – 12 yrs old youth up to 5'4"!

The Cheetah 6 is equipped with a 163cc, 5.5 HP horizontal OHV Engine; Torque converter CVT transmission which allows this beast to take off with ease. Its top speed can reach up to 24M/H. It has an adjustable seat with pedal to seat back adjustable from 28" to 32". The manual choke allows this unit to start easy even under cold temperatures. A pull cord kill switch is another safety feature added to this unit.

Automatic CVT with reverse, hydraulic disk brake, 4-point safety seat belts, parking brake, fenders, canopy top and cargo rack are just a few of the many special features. Add the dramatic body panels and the LED headlight package and this is one cool cat!

We have this model in blue, red, yellow.
