

BV Powersports affordable Go-Kart for Kids The Mini XRS+

Parents look out! This TrailMaster Mini XRS might be just the match for your kids rough and tumble go-karting excursions. This go-kart is designed to fit some of the youngest of riders which will really pump kids up when you take family trips to your favorite trails.

The Mini XRS is designed specifically with the inexperienced go-karter in mind. With a 2 wheel drive live axle and full front and rear suspension it can go just about anywhere. In fact, with the no maintenance pull start 163cc / 5.5hp engine your child will be whipping around the turns in no time at all. The go-kart is equally easy to turn off, which makes it perfect for any time your child feels uncertain about the trail or their safety. With 3 adjustments to the pedal...short or tall can drive with comfort.

Mom and Dad will love the serious safety features like the seat belt design, fully enclosed bottom, side rails and padded upper brush guard that will keep your child safe from debris and other mishaps. The easy going 12 MPHs, speed governor, and trustworthy disc brakes make it a worry free ride for kids and parents alike.

We have this model in pink, red, blue, & black
