

AllSwell Notebook

The AllSwell Notebook is a slim, travel-friendly journal made in the U.S. from recycled materials. Launched by Laura Rubin, founder and creative director of Left Left Right (LLR) Consulting, the 8.5” x 6.5” notebook is essentially two journals in one, including a lined “WRITE” side and a unlined “DRAW” side perfect for sketching. A percentage of the proceeds will go to A Walk on Water, an organization that provides water therapy through guided surf instruction to special needs children.

The notebook has 96 blank pages: 48 lined and 48 unlined. The interior covers feature custom designs by illustrator Alessandra Olanow. \$21.00. <http://allswellcreative.com/pages/find-us>
