

# everyday IMMUNITY

High Absorption Vitamin D3

health in  
harmony

## Advanced Formula to Support Immunity

- 1 Loaded with 4,000 IU of high absorption Vitamin D3 (cholecalciferol), ensuring consumers meet the daily recommendations by the CDC and other regulatory bodies.
- 2 Build immunity and help fight off infection by regulating the activity of immune cells to elicit antiviral responses.
- 3 Additional benefits may include healthy bone composition, maintenance of breast and prostate tissue, and improved calcium and phosphorous absorption.

### POWERED BY VESISORB®

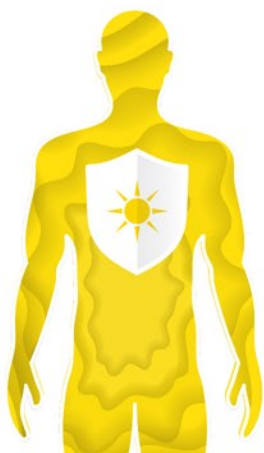

- ✓ Patented and Clinically Proven Delivery System
- ✓ Dramatically Increases Bioavailability & Absorption
- ✓ Long History of Safe and Effective Use
- ✓ Improves Shelf Life and Stability

### QUALITY ASSURANCE

- ✓ Triple Lab Tested (ISO17025)
- ✓ GMP Certified
- ✓ Non-GMO
- ✓ Dairy Free

## High Absorption **Vitamin D3.**

**Everyday IMMUNITY is a science-backed formulation of Vitamin D3 (cholecalciferol) that is a highly potent solution to help combat Vitamin D deficiency. More than ever, consumers are seeking highly bioavailable Vitamin D3 products that they can depend on to strengthen immunity and protect against colds, flu, and viruses.**

### WHY IS VITAMIN D3 PREFERRED OVER D2?

**Vitamin D3 has become one of the most recognized ingredients in the medical community for maintaining a healthy immune system.**

Vitamin D3 (cholecalciferol) is a more potent and effective form of Vitamin D when compared to Vitamin D2. Vitamins D2 (ergocalciferol) and D3 (cholecalciferol) are naturally occurring precursors that are converted in the liver and kidneys to the biologically active form of Vitamin D. Studies have shown that Vitamin D3 is more effective than Vitamin D2 in raising and maintaining levels of biologically active Vitamin D.
