

# GAR

## Helping You Get A Grip Let LHR Give You A Hand!

GET THE BITE ON PIPE, TUBE  
AND MORE

### Safety Is Our Business

The GAR is a hands free lightweight versatile pipe, tube and material handling tool that keeps your hands away from pinch, crush and cut hazards.

Users can place the pipe or tube wall inside the GAR jaw and lift or push to create a "Bite" while keeping hands and fingers away from dangerous cut and pinch points.

### Specially Designed

The GAR attachments are available in 4 sizes. It also has a D-handle that can be quickly and easily rotated 90 degrees for most comfortable grip. Use the GAR to lift, move and position round and square tube, flat sheet and more.
