

Magna-Grab

Is Your Workload Weighing You Down?
Let LHR Give You A Hand!

**MAGNETIC ANCHOR POINT,
RETRIVAL TOOL**

Safety Is Our Business

The Magna-Grab is a multi-purpose, multi-use magnetic tool for magnetic material handling and retrieval. It is a portable magnetic tagline anchor point for suspended loads that don't offer an ideal attach point or when a quick "add on" control point is needed.

Specially Designed

The Magna-Grab is a versatile long reach, confined space retrieval tool for dropped objects. It provides a portable no-touch solution with a solid grip to keep hands off any steel material with at least 4" to 6" of space for attachment.

The Magna-Grab comes with an eye bolt in the handle so it can serve as an effective tag line anchor point where one may not exist. When a tag line is attached it can also be lowered down into hard-to-reach areas for retrieval of dropped steel objects 100 lbs or less.
