

JACK OF ALL TRADES  
HANDLING, PULLING, LIFTING,  
HOLDING, GUIDING AND POSITIONING

# Multi-Grab II

Is Your Workload Weighing You Down?  
**Let LHR Give You A Hand!**

## Safety Is Our Business

The Multi-Grab II is an extremely versatile material handling, lifting and pulling hand safety tool. It helps keep hands off it and away from hazardous pinch, crush and cut points.

## Specially Designed

The D-handle allows for a sure single-handed grip on steel sheet, scrap, drop, assemblies, parts, equipment and more. Use it on worktables, welding tables, water jetting tables, assembly lines and in steel fabrication operations.

The Multi-Grab II has a higher pivot point which allows for more clearance over materials, parts and equipment. Facilitates lifting and pulling up on objects vertically.
