

Talon

Is Your Workload Weighing You Down?
Let LHR Give You A Hand!

**HOOK, PICK, PUSH AND PULL
HAND SAFETY TOOL**

Safety Is Our Business

The Talon is a small versatile hand tool that enables easy picking, hooking, pulling and pushing. You can use it to manipulate and move dangerous objects with potential for pinch and crush injuries to hands and fingers.

Specially Designed

This tool is built with precision and quality in the USA. With it's unique dual hook design, users can quickly and easily grab, hook, push, pull and pick without putting hands on objects or near areas where cut, pinch and crush hazards exist. Grab, pull and position chain, wire rope, rebar, rope, pipe, tubulars, beams, wire mesh, etc.

The Talon is a tough, lightweight and compact no-touch safety tool that keeps workers hands and fingers away from hazards. The Talon dual hook is easily installed and assembled with a 3/8 stainless steel cap screw and the provided 5/16 inch allen wrench. It is useful on oil rigs, drilling rigs, ships, material handling and more.
