Welcome to our sizing guide. Delfina Delettrez uses standard EU rings sizes. To determinate the size that fits you best please follow our tips.

Measure by matching your ring

Print this guide* and use an existing ring that fits you well. Match the inside of that ring with one of the circles below.

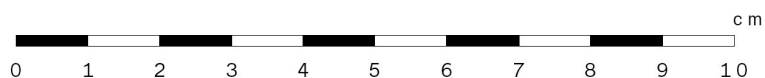

Measure with ruler

To measure your finger you can use a length of string or ribbon to wrap around the base of your finger. Mark the point on the string where the ends meet. Measure the circumference in millimeters with a ruler. This measurement corresponds to the size of the ring.

Please note that the size of the ring may vary depending on the style of the ring: a large ring is made to be worn more loosely than a smaller model. Therefore, Delfina Delettrez recommends that you select one size smaller than indicated in this guide for rings that features thin bands. For large models we suggest one size bigger to allow the ring to easily slide on and off your finger.

*before printing ensure that the 'page scaling' option is set to 'none' in the print dialogue box, then print it on a full letter "A4 (21x29.7 cm)" size page
