

BIXIB

DESIGN LUCA ALESSANDRINI

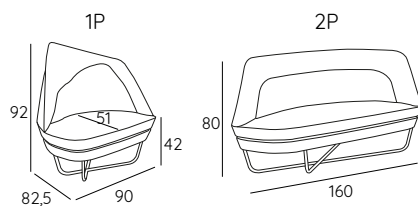

Bixib freely refers to the Latin name of the silkworm: Bombyx Mori. The palindrome neologism narrates the geometry of upholstered artefacts that change according to the perspective from which you observe them: what is symmetrical from the front becomes freely organic as the observation angle changes. Bixib rests on an innovative base in varnished tubular metal.

- 1 - dacron® fiber 100 gr;
- 2 - high resilience polyurethane foam of different densities;
- 3 - structural frame in plywood and multiflex wood;
- 4 - elastic webbing;
- 5 - structural frame in plywood;
- 6 - base in varnished tubular metal.

The bielastic coatings adhere perfectly to the product

The velvets and the fake leathers dress the product with softness with small pence in the more rounded parts, which become the natural characteristic of this version.

BIXIB

DESIGN LUCA ALESSANDRINI

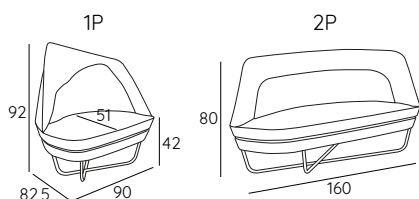

Bixib si rifà liberamente al nome latino del baco da seta: Luca Alessandrini Bombyx Mori. Il neologismo palindromo ci racconta la geometria di sedute che cambiano forma in base alla prospettiva dalle quali le si osserva: quel che frontalmente è simmetrico diventa liberamente organico al variare dell'angolazione. Bixib appoggia su una base tubolare metallo verniciata.

- 1 - fibra di dacron® 100 gr;
- 2 - poliuretano espanso indeformabile di diverse densità;
- 3 - telaio in multilex e multistrato di legno;
- 4 - cinghie elastiche intrecciate;
- 5 - telaio in multistrato di legno;
- 6 - base in tubolare metallo verniciata.
