

Tigram: the art of playing with geometrical shapes (and turning them into sofas and chairs)

Starting out from Tangram, the ancient Chinese game based on arranging seven geometrical shapes in combinations to form an endless variety of designs and figures, Adrenalina has developed a collection of padded elements that re-invents the original brain teaser. The seven basic elements are armchairs, sofas, poufs and stools, all rigorously modeled on a hexagonal base and featuring different sizes, heights, and colours, which can be combined and separated to create figures and symbols in a kaleidoscope of variations. The simple shapes of Tigram's primary elements allow a tremendous and exciting variety of combinations that give birth to complex clusters of figures that can be freely interpreted both by those who arrange them and by the observer.

The choice of single elements can be summed up in a harmonic yet explosive whole, but you can also let them drift away from each other and let them recover their individual charm. Tigram can be an articulated combination of elements, but each element can also elegantly stand on its own to stylize a corner or to fashion a cozy and friendly parlour.

TIGRAM CHAIR:

- 1 - dacron® fiber 100 gr;
- 2 - high resilience polyurethane foam of different densities;
- 3 - structural frame in plywood;
- 4 - swivel base in shiny inox and column in chrome metal.

TIGRAM LOW-HIGH:

- 1 - dacron® fiber 100 gr;
- 2 - high resilience polyurethane foam of different densities;
- 3 - structural frame in plywood;
- 4 - PVC feet.

TIGRAM STOOL:

- 1 - dacron® fiber 100 gr;
- 2 - high resilience polyurethane foam of different densities;
- 3 - structural frame in plywood;
- 4 - swivel base in shiny inox and column in chrome metal.

WE ARE DIFFERENT!

Tigram: l'arte di giocare con le forme geometriche e trasformarle in divani e poltrone.

Partendo dal concetto del Tangram, antico gioco cinese basato sulla componibilità di 7 forme geometriche con le quali si possono costruire infiniti disegni e figure, Tigram si sviluppa sulla base di forme geometriche semplici, su elementi primari componibili che le permettono di trasformarsi in un insieme complesso di figure liberamente interpretabili sia per chi le progetta, sia per chi le osserva. 7 elementi tra poltrone, divani, pouf e sgabelli, tutti rigorosamente modellati su una base esagonale, con diverse dimensioni ed altezze, disponibili in un'ampia varietà di colori, si uniscono e si separano creando figure e simboli e cromie mutanti come in un caleidoscopio. È una collezione perfetta per arredare locali pubblici che hanno la necessità di arredi flessibili e modulari, facilmente adattabili ai diversi momenti di vita dei luoghi vissuti da collettività in movimento, che mutano continuamente l'ambiente in cui si spostano. Tigram non è solo un insieme articolato, ma anche un singolo pezzo scelto ad hoc per un corner sofisticato o un angolo chiacchiere esclusivo di un ambiente domestico frutto di ricerca e studio, nel quale Tigram si inserisce nella versione con schienale basso, nel ruolo di divanetto discreto o di trono altezzoso.

TIGRAM CHAIR:

- 1 - fibra di dacron® 100 gr;
- 2 - poliuretano espanso indeformabile di diverse densità;
- 3 - telaio in multistrato di legno;
- 4 - base girevole in inox lucido e colonna in metallo cromato.

TIGRAM LOW-HIGH:

- 1 - fibra di dacron® 100 gr;
- 2 - poliuretano espanso indeformabile di diverse densità;
- 3 - telaio in multistrato di legno;
- 4 - piedi in PVC.

TIGRAM STOOL:

- 1 - fibra di dacron® 100 gr;
- 2 - poliuretano espanso indeformabile di diverse densità;
- 3 - telaio in multistrato di legno;
- 4 - base girevole in inox lucido e colonna in metallo cromato.
