

DISPOGLOVE

Soapy washing glove, hygienic, for sanitary use, disposable and biodegradable, ready to use. Frees all its hygienic properties just by getting in contact with a few drops of water.

Anatomically designed to ensure it does not slip off the hand whilst in use.

DISPOGLOVE with its SINGLE USE concept, eliminates radically any possibility of infection spread, whilst provides an effective hygiene in a convenient and safe way for the patient. There is enough cleansing gel to completely wash an adult.

Available in dispenser boxes.

DISPOSIN GLOVE

Glove that allows to incorporate the most indicate soap for each patient.
