

Positioning

SINGLE USE

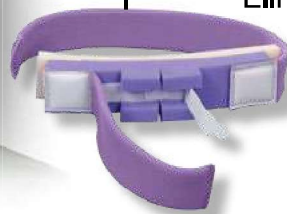

Xodus Medical offers an entire line of single-use positioning products. All products:

- Have a skin-friendly surface that gently positions patient while also preventing **HAPUs** and **CMS Never Events**
- Guarantee correct anatomical positioning
- Are a cost-effective alternative to cleaning while also reducing risk of HAIs
- Are vacuum sealed for easy and compact storage

Nasotracheal Tube Immobilizer

NS30430
(NTI)

- Minimizes risk of accidental extubations
- Eliminates the need for custom assembly
- Decreases surgical set-up time
- Establishes a universal standard of care

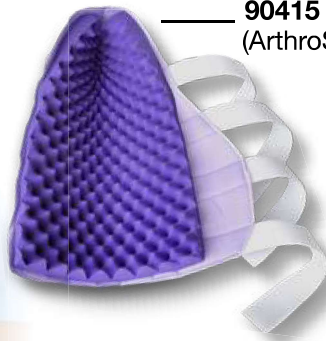

Shoulder Arthroscopy Products

Xodus Medical offers two solutions to help increase patient safety during shoulder arthroscopy procedures: The **ArthroSleeve™** and The **Arthro Suspension Kit™**

NEW! ARTHROSLEEVE™

90415
(ArthroSleeve)

- Supplies distal traction, abduction angle adjustability, and humeral rotation all at the same time
- Skin-friendly material provides better grip while still protecting skin from HAPUs and breakdown
- Wide straps ensure nerve protection and correct positioning

ARTHRO™ SUSPENSION KIT

90403
(Shoulder
Arthroscopy Kit)

- Provides maximum access to patient's shoulder
- Keeps shoulder positioned anatomically correct
- Single-use reduces risk of cross-contamination and HAI frequency
