

TEMP INDICATORS

Preferred by pain management specialists

Perfusion Monitors

- Temperature indicators read and display skin temperature
- Ideal for Pain Management Departments
- Use when doing EMGs or to diagnose RSD
- Useful for assessing the effectiveness of nerve blocks by watching for a sympathetic rise in temperature
- Quantify your block

Making Sure You Have All the Crystaline® Temperature Trend

Proven on over 70 million patients.

When it comes to temperature, often all you need is trend. Stick with the leader, stick with Sharn. In today's healthcare environment, temp indicators are an important part of every temp management program, meeting key performance goals:

- **Patient Safety** – one device, one patient, and improved continuity of monitoring, pre-op to post-op and on
- **Infection Prevention** – non-invasive
- **Patient Satisfaction** – no sore throats, parents & kids love to be able to take them home too
- **Value Based** – far less expensive than electronic probes

Crystaline® II

Crystaline® W

Crystaline® II, Crystaline® W, and TempAlert™ II

- Bright green bar indicates temperature
- Easy to read
- 2° increments
- Crystaline W features wider bars for even easier readings
- Smaller TempAlert II is more economical
