

# Hygeolis

The air purifier for your  
smallest areas

NEW FOR  
2019

- Odours
- Micro-organisms

Hygeolis enables you to maintain a **clean and healthy space every day**

Washrooms | Changing rooms | Equipment rooms | Nail bars | Utility vehicles  
Ship cabins | Mobile homes | Campervans | Prefabricated units | Rooms, etc.

# Hygeolis eliminates odours & purifies the air 100% naturally

Controlling unpleasant odours is a major challenge in professional settings for the **comfort and image of establishments**. **Odours** (chemicals, drains, cooking, tobacco, etc.) and **micro-organisms** (bacteria, viruses, mould, dust mites, etc.) are particularly dreaded in **confined, high-traffic areas** such as washrooms and changing rooms as well as mobile homes and ship cabins. For this reason, NatéoSanté developed Hygeolis, for **natural, intensive and continuous purification** of the indoor air in these spaces. Suitable for use wherever odours linger, Hygeolis provides clean air **without chemicals or fragrances**.

## DISCREET

- Compact size
- Silent
- Customisable design

## ENVIRONMENTALLY FRIENDLY

- 100% natural purification
- Fragrance and chemical-free
- Low energy consumption

## MADE IN FRANCE

- Designed, manufactured and assembled in France
- 3-year warranty

## EASY TO USE

- It plugs into a standard socket
- Plugs into a standard mains socket
- 3 speeds
- Long-life consumables

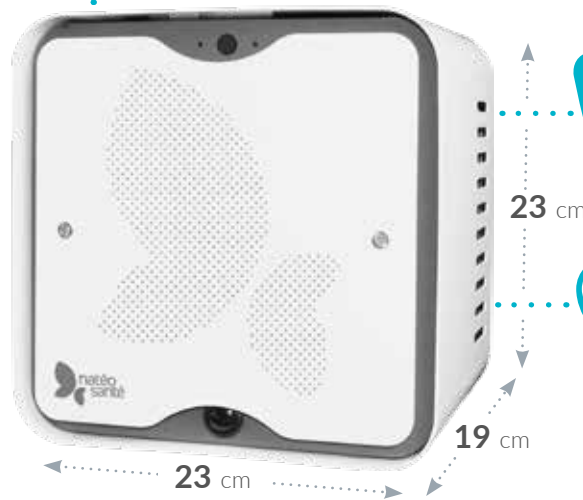

## REMOTE CONTROL

Controlled remotely

## PORTABLE

Freestanding or wall-mounted

## Give your customers the comfort of clean air at all times

- A room with fresh air, regardless of its purpose
- The convenience of continuous operation
- Convey the impression of a well-managed company, even down to the air that customers breathe
- An enhanced customer experience

## Customise your Hygeolis

With its customisable colour, Hygeolis looks at home in any indoor environment. IT can become an ambassador of your brand or blend in perfectly with the décor, depending on your preference.

You have 2 options available:

- Specify the colour of your Hygeolis
- Customise it with your printed logo

# Powerful filtration technology

Hygeolis draws the polluted air in through the front and returns clean air in 270° degree operation for optimum efficiency, whether freestanding or wall-mounted.

**EN1276 and EN14675 certified removable bactericidal, virucidal and acaricidal pre-filter**  
 bacteria, viruses, dust mites, pollen, dust, fine particles (PM10, PM2.5), etc.

**Very high density (VHD) active carbon filter**  
 odours, gas, VOCs (formaldehyde, benzene, etc)

**Performance booster function available**  
 embedded odours, micro-organisms, etc.

# The NatéoSanté approach: Eco-design & Made in France

Today, millions of people are faced with air quality that is entirely inadequate. For this reason, NatéoSanté, **a designer and manufacturer of professional air purifiers** is operating since 2009 near Pornic (on the Atlantic coast), works continuously on innovations to provide **clean air for everyone**.

Committed to local production and an eco-design approach, NatéoSanté has surrounded itself with the best French talents, designers, plastics specialists, integrators and developers and works every day so that everyone has the ability to **control the air they breathe**.
