

Vital Signs® pressure infusors

- Highly visible color coded gauge accurately displays bladder pressure
- Large inflation bulb with smooth recoil for hand comfort
- Robust and durable construction to hold constant pressure and prevent leaks
- Single-patient-use to minimize the spread of nosocomial infections via touch contamination
- Color-coded printing for rapid identification of size
- Materials that do not contain natural rubber latex or neoprene

Vital Signs pressure infusor

The nylon netting on the back ensures simple and secure placement of the fluid bag.

Available in 500 mL,
1000 mL and 3000 mL

Vital Signs clear pressure infusor

The clear PVC backing helps the clinician visualize fluid levels and allows for unobstructed barcode scanning.

Available in 500 mL
and 1000 mL
