## Heel Cup Heel Protector

Part #	Dimensions	Description	Weight
SPG-4004F	6 X 3-1/4 X 1-3/4"	Heel Protector, Each	.8 lb
SPG-4004FP	6 X 3-3/4 X 1-3/4"	Heel Protector, Pair	1.5 lbs

## Andrews Frame Knee Pad

Part #	Dimensions	Description	Weight
SPG-8008M	16 X 12 X 1/2"	Knee Pad	3.6 lbs

## Knee Crutch Pad

Part #	Dimensions	Description	Weight
SPG-7000K	12 X 9 X 1/2"	Knee Crunch Pad, Small	1.8 lbs
SPG-7002K	16 X 12 X 1/2"	Knee Crunch Pad, Medium	3.6 lbs

## Flat & Table Pads

Part #	Dimensions	Description	Weight
SPG-8001M	16 X 12 X 1/2"	Pediatric, Medium	3.6 lbs
SPG-1020T	15 X 4 X 1/2"	Neo/Pedi, Small	1 lb
SPG-1021T	24 X 4-1/2 X 1/2"	Table Pad, Medium	3 lbs
SPG-1024T	17 X 12 X 1/2"	Neo/Pedi, Large	3 lbs
SPG-8022M	16 X 12 X 1/2"	Neo/Pedi, Universal	1.5 lbs

What is seamless polymer gel? SPG-Seamless Polymer Gel™ is a dry polymer gel product that can be cast or molded into many sizes, shapes and configurations to enhance patient comfort and positioning. SPG-Seamless Polymer™ gel eliminates the need for the unsightly and failure-prone peripheral sealed film around the base of traditional gel positioners. With SPG-Seamless Polymer Gel™, the gel is seamlessly encapsulated within a tough but soft, highly elastic membrane thus ensuring patient comfort, maximum body-conforming support of the gel pad and, importantly, its ease of cleaning. The patent-pending technology is the result of intelligent choice of innovative materials, process options and field input.
