a product of
genimpex_{sr1}

genimpex presents a complete range of floor mats for contamination control in sensible environments:

the original decontaminating **SALUBER**, the tailor-made and marketing oriented **DASTIK**, the heavy duty **SALUBER CLEAN** and the fluid collector **SALUBER DRAIN**.

All together provide an effective and practical solution for everyday cross infection control!

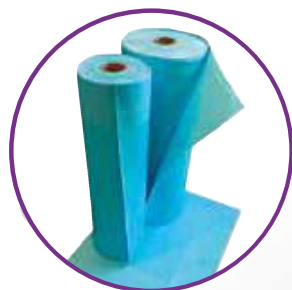

DASTICK

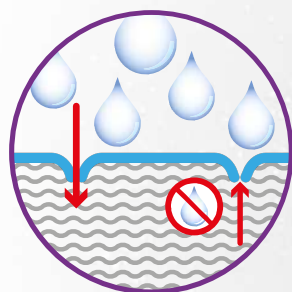

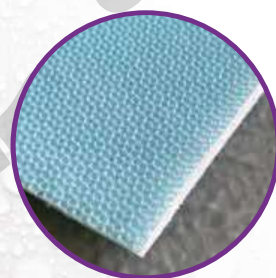

A SUPER ABSORBENT MEDICAL MAT DESIGNED TO ABSORB AND RETAIN FLUIDS GENERATED IN A NUMBER OF HOSPITAL AREAS

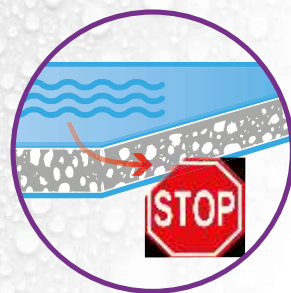

Thanks to its anti-skid backing SALUBER DRAIN promotes safety by preventing accidental slips related to wet floors and **reduces the risk of cross contamination** to healthcare personnel. Its disposal is economical, simple and significantly reduces operating room preparation time.

SALUBER DRAIN is a combination of 3 different materials: bottom layer in antiskid Polyethylene; mid layer in Airlaid added with SAP; upper layer in fast permeable Polyethylene. 3 levels of absorbance are available: from 2 litres per square meter up to 5. Active on a wide variety of fluids, available both in cut-to-size **rolls and in pre-sized mats**.

The upper layer is a **micro-perforated sheet** which allows instant liquid penetration and fast dry; holes are reverse-cone-shaped to avoid backflow of fluids to the surface. The central layer is added with **super absorbent polymer (SAP)** capable of retaining large volumes of liquids.

While **all-round sealed edges** prevent leakage of absorbed fluids from all sides of the mat, the lower layer creates a **waterproof and anti-skid** barrier protecting the floor. Both features reduce the risk of cross contamination.

REF	DESCRIPTION	SIZE cm	ABSORBANCE
SD-5009-13/18/30	1 roll - antislip - microperforated top - with SAP	5.000 x 90	2,1/ 3,6/ 5,0
SD-0259-13/18/30	1 roll - antislip - microperforated top - with SAP	250 x 90	2,1/ 3,6/ 5,0
SD-0209-13/18/30	1 roll - antislip - microperforated top - with SAP	200 x 90	2,1/ 3,6/ 5,0
SD-0159-13/18/30	1 roll - antislip - microperforated top - with SAP	150 x 90	2,1/ 3,6/ 5,0
SD-0109-13/18/30	1 roll - antislip - microperforated top - with SAP	100 x 90	2,1/ 3,6/ 5,0
SD-0059-13/18/30	1 roll - antislip - microperforated top - with SAP	50 x 90	2,1/ 3,6/ 5,0
