

Hanging systems

Eyelet only

Sporicidal Eyelets

Antimicrobial & Sporicidal Curtains always have large **red** eyelets. For use with customer's own hanging systems, ie no hooks supplied.

HANGING SYSTEM CODE E

Untreated Eyelets

Untreated Curtains always have **white** eyelets. For use with customer's own hanging systems, ie no hooks supplied.

HANGING SYSTEM CODE E

Hook types

Hospital track systems vary in styles and dimensions. However, Bio Technics Ltd has an ex-stock range of alternative glider and hooks which experience has shown us will fit most existing healthcare tracks.

1 Quick-Fit

One-piece hooks allow quick and easy fitting onto track.

HANGING SYSTEM CODE: QF

2 Large-Top

Similar to our Quick-Fit hook but with a larger head to fit wider channels.

HANGING SYSTEM CODE: LT

3 U-Type

Hooks designed to fit on existing U-Type track systems.

HANGING SYSTEM CODE: U

4 Wheeled

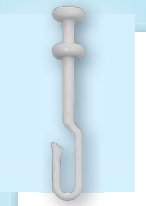

Includes integral wheels for smoother movement. Two widths available:

- **Wheeled** fit the same railings as **Quick-Fit**

HANGING SYSTEM CODE: WH

- **Wide-wheeled** fit the same railings as **Large-Top**

HANGING SYSTEM CODE: WWH

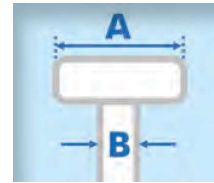

Choosing the correct hook

When choosing the type of hook you order with your curtain, it's important that you order the correct size to fit your railing - and with so many types of railings available worldwide, this is sometimes easier said than done!

There are two ways to help ensure the hook will be suitable for your railing:

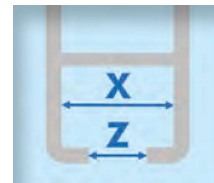

HOOK MEASUREMENTS

- Take the measurements of your existing hooks.
- The two dimensions you require are head/glider width (**A**) and neck width (**B**).

RAILING MEASUREMENTS

- If available, use the inner measurements of your railing.
- The two dimensions you require are inner width (**X**) and channel width (**Y**).

A GOOD FIT!

- These measurements will make sure your hook fits in your railing and is neither too big (won't fit) nor too small (will fall out)!

A quick size guide

HOOK TYPE	ORDER CODE	HEAD WIDTH (A)	NECK WIDTH (B)	SUITABLE FOR RAILING:*
QUICK-FIT	QF	10.0mm	4.0mm	Silent Gliss 6100
WHEELED	WH	9.5mm	4.5mm	Silent Gliss 6100
LARGE-TOP	LT	14.0mm	3.0mm	Movatrack 100
WIDE-WHEELED	WWH	12.0mm	4.5mm	Movatrack 100
U-TYPE	U	N/A†	N/A†	Marlux Fast-Fit

* The railings given are examples of commonly available systems - it is not meant to suggest that this is the only system that these hooks are suitable for use with.

† The X and Y measurements are not applicable to our U-Type hooks as these are designed to fit over the railing.

Still not sure?

If you would like a sample pack of all the different hook types we have available, please contact us.
