

Tubing

14

Inter Abdominal Tubing

I.C. Medical's Inter Abdominal Tubing is used with the Crystal Vision 450D during laparoscopic procedures to help improve the OR team's vision during surgery. The use of Inter Abdominal Tubing also keeps the patient from absorbing smoke produced during a closed procedure.

Speculum Tubing

Speculum Tubing is used during gynecological procedures to help eliminate surgical smoke or electrocautery plume that may contain potential pathogens.

Product Number	Qty/Case	Sterility	Product Description
ICM-000-0003	25	Sterile	Inter Abdominal Plume Eliminator Tubing
ICM-000-0021	9	Non Sterile	Speculum Smoke Collection Tube
ICM-000-0027	25	Sterile	Speculum Smoke Collection Tube
ICM-000-0030	9	Non Sterile	Wand with 15mm Tube
ICM-000-0075	15	Sterile	Wand with 15mm Tube
ICM-000-0098	25	Sterile	Smoke Tube, 10mm x 9 Feet
ICM-000-0236	10	Non Sterile	4' Tubing With Connector On One End
ICM-000-0269	25	Non Sterile	1' Hose with 10mm Swivel
ICM-000-0274	5	Non Sterile	2' Tube with Connector
ICM-000-0295	9	Non Sterile	Inter Abdominal Smoke Removal Tubing
ICM-000-0347	15	Sterile	15mm Smoke Tube - 120 inches
ICM-000-0365	9	Non Sterile	Speculum Tubing with 22mm Connector

Shrouds

15
