## Instructions

1. Verify that the print scale is 1:1 by tape measuring the scale on the bottom of this page.
2. Place a pencil at tip of point «P».
3. Place fingers on the sizing chart. Make sure the Index finger and Middle finger rest snug against the Pencil Stop. Align all fingers vertically.
4. Identify the tip of your INDEX and use the horizontal line that is on or above it.
5. Identify your PALM WIDTH and use the vertical line that is on or to the right of your hand measure.
6. Your size is in the color-coded box at the intersection of the vertical and horizontal lines.

Example: The hand print shown is a size 82N.
