

CONNECTED RADAR & LASER DETECTOR

Long-Range Radar Detection

OUR MOST POPULAR RADAR DETECTOR

The Cobra RAD 480i is our most popular radar detector that keeps you safe on the road with long-range detection and accurate alerts. It also connects to the Drive Smarter® App so you can access speed-based sensitivity and Defender Database locations of red light and speed cameras. Built-in Digital Signal Processing (DSP) helps sift through all radar signals so you get the right alerts at the right time.

TOP FEATURES

-  **LONG-RANGE DETECTION**
Earlier warnings provide greater protection against all radar and laser guns in use on the road
-  **2ND GENERATION FALSE ALERT FILTERING**
Enjoy a quiet ride with reduced false alerts from Blind Spot Monitoring and other radar-based systems
-  **DIGITAL SIGNAL PROCESSING (DSP)**
Built-in DSP enables faster processing for all incoming signals to provide rapid and accurate alerts
-  **RED LIGHT & SPEED CAMERA ALERTS**
Bluetooth® connectivity to Drive Smarter® provides access to red light and speed cameras locations
-  **OLED DISPLAY**
A monochromatic OLED display lets you clearly see your radar bands, strength, and frequency, day or night
-  **UPDATEABLE SOFTWARE**
Receive regular new updates to your radar detector's firmware for improved performance and accuracy
