

Parts List			
Item	Qty	Part Number	Description
1	1	ASKAEX1000RX-STUB	12V/24 Receiver 7 Function + E-Stop
2	1	HAR-A-15-CON6011	Wiring Harness 4.5m
3	1	ASK800TX-ES	Hand Control E-Stop Transmitter 7 Function

FUNCTION DESCRIPTION:

- Buttons (channels) 1 - 7 on the **transmitter (Hand Control)** are latched outputs. Pressing each button will send +12/24VDC on the corresponding electrical pin of the connector to activate the function. Pressing the button again will deactivate the channel.
- Pressing the E-Stop button will deactivate any active channels, and activate +12/24VDC on the corresponding electrical pin of the connector and remain active until the power is cycled off/on the receiver
