## Wi-Fi enabled with award-winning design

Live life to the fullest without compromising your health, wellbeing or personal style. With an exciting new color palette, the Blueair Sense+™ series is perfect for compact spaces where good looks matter, but breathing clean air matters more. Wi-Fi enabled for remote control and interactivity with the Blueair Friend app to give you indoor air quality advice and air quality data.

- Style your life with better indoor air quality
- Combines the best of Swedish engineering with functional aesthetics
- Built-in motion sensor and filter change indicator

## Sense+ air purifier<sup>A</sup>

● - Yes   ● - No

<b>Room size</b>	18 m <sup>2</sup> (196 sq. ft.)	
<b>Clean Air Delivery Rate (CADR)<sup>B</sup></b>		
Smoke	120 cfm (204 m <sup>3</sup> /h)	
Dust	140 cfm (238 m <sup>3</sup> /h)	
Pollen	150 cfm (255 m <sup>3</sup> /h)	
Air changes per hour <sup>C</sup>	5	
<b>Product</b>		
Airflow	- High	150 cfm (255 m <sup>3</sup> /h)
	- Low	35 cfm (60 m <sup>3</sup> /h)
Sound level	- High	50 dB(A)
	- Low	29 dB(A)
Energy consumption	- High	45 W
	- Low	7 W
Casters	●	
<b>HEPASilent<sup>®</sup> filter<sup>D</sup></b>		
Particle filter	●	
Particle filter with carbon sheet <sup>F</sup>	●	
SmokeStop filter	●	
Number of filters	2	
Filter replacement indicator	●	
<b>Connectivity / sensors</b>		
Wi-Fi	●	
Blueair Friend compatible	●	
Integrated sensors	●	
<b>Certification programs<sup>E</sup></b>		
AHAM verified	●	
Energy Star	●	
ARB (0 Ozone)	●	
<b>Dimensions / weight</b>		
Product dimensions (H x W x D)	492 x 470 x 170 mm (19.5 x 18.5 x 6.7 in.)	
Product weight (including filter)	11.5 kg (25.4 lbs)	

Other models may be available in different markets. Please consult your authorized Blueair distributor for more information. Preliminary figures to be verified by a third-party test institute.

<sup>A</sup> Specifications based on U.S. models (120 VAC, 60 Hz with particle filter).

<sup>B</sup> The CADR indicates how much filtered air is delivered (airflow) by the air purifier operating at the highest setting, and how well the system removes tobacco smoke, dust and pollen pollutants from the air (efficiency). Tests are performed in accordance with ANSI/AHAM AC-1. The maximum possible CADR ratings according to this standard are: Tobacco Smoke: 450 cfm. / Dust: 400 cfm. / Pollen: 450 cfm.

## Blueair Sense+ Particle Filter

<b>Filter media</b>	Non-woven gradient PE/PP blend fibers and activated carbon sheet <sup>F</sup>					
<b>Number of filters</b>	2

## Best-in-class filtration for every need

Our air purifier replacement filters use a revolutionary combination of the best in electrostatic and mechanical filtration. The HEPASilentPlus technology removes 99.97% of harmful particles from the air, down to 0.1 micron in size.

- Highly efficient particle filtration can be combined with activated carbon filtration media to
- Saves energy with super low energy consumption
- Less dense filter media, which means lower noise levels

<sup>C</sup> Air change per hour is calculated on the recommended room size, assuming 8 foot (2.4 m) ceiling. The air change rate per hour will increase for smaller rooms.

<sup>D</sup> Recommended interval for filter replacement is 6 months.

<sup>E</sup> Blueair units comply with quality, safety and regulatory requirements of the countries where they are sold. Blueair units comply with international standards, including the CE mark, S mark, CB Scheme and ETL Listed Mark. National standards are controlled by the distributors responsible for the market.

<sup>F</sup> Blueair Sense+ filters include an activated carbon sheet.
