

# ARTIS SURFACES

THE DEFINITIVE LAMINATE COLLECTION

WHEN INNOVATION REALLY MATTERS

WORKTOPS | SPLASHBACKS | UPSTANDS

[www.artis.co.uk](http://www.artis.co.uk)

Just for you because you're on top of the latest design trends and choose from the most innovative designs, we present the new Artis Surfaces Collection for 2022.

We have selected a range of 31 designs that include exclusive finishes and special effects to create contemporary yet functional kitchen environments.

Available in Square Edge and Postformed Slab-Cut; this collection of 40mm and 22mm worktops has a concept for all occasions. All decors are available in 4100x600, 3000x600, 3000x665, 3000x900, 3000x1210x8mm splashbacks and 3000x100x20mm upstands.

Artis surfaces provide the stunning ambiance of solid wood, granite, stone, marble and quartz at a fraction of their cost.

Manufactured in Great Britain and exclusively distributed by Plasman, Artis offers leading quality, reliability and long lasting performance.

## Cut & Edge

### Custom Made Square Edge Worksurfaces

#### Step 1

Sketch out the worksurface and breakfast bar shapes you want on the plan opposite. (You can request a PDF version at [sales@plasman.co.uk](mailto:sales@plasman.co.uk)) Please be sure to include decor and dimensions.

#### Step 2

Send the sketch to us at [sales@plasman.co.uk](mailto:sales@plasman.co.uk) or fax 0161 224 9961. We'll create a technical drawing for you to review and approve.

#### Step 3

Once you have signed off the drawing the surfaces will go into manufacture.

#### Step 4

Delivery will be within 4-5 weeks of order.

## Woodgrains

For centuries, wood has been our most loved, enduring material; making it a primary element in creating a theme.

Our collection of Woodgrains capture the natural looking beauty of real wood through superb depth of colour, high definition print and contemporary textures.

*(See product matrix on page 3 for size & texture availability)*

## Stones & Granites

Concrete is an extremely versatile material and has become popular in recent times for use within the home.

Our range of stunning contemporary slab laminates express the look of stone that faithfully imitates, but at minimal costs.

*(See product matrix on page 3 for size & texture availability)  
All surfaces are available with splashbacks and upstands*

Postformed 40mm

Black Granite (*Crystal*)  
Postformed 40mm

## Marble

Marble has been used since ancient times and was once so expensive it was only seen in palaces and monuments.

These marble laminate surfaces use the latest technology to make a big statement without the need for a big budget.

*(See product matrix on page 3 for size & texture availability)*

Postformed 40mm

## Snow Sparkle

With stunning metallic accents Snow replicates the finish of quartz at a fraction of the cost.

Sparkling under direct sunlight or focused lighting, matching splashbacks complete the look, accentuating the feeling of space.

### Edging Availability

We supply edging in two formats to match our range of square and postformed worktops:

#### Square Edge

ABS edging, available in 1m increments (purchase separately)

#### Postformed

Laminate edging, available in 1.2m lengths (included with each worktop)

## ColorFill

ColorFill worktop joint sealant and worktop joint repairer has been used by tradesmen since its formation in 1997. It has been scientifically formulated and tested to resist moisture, detergent and other household products as efficiently as laminate and will withstand heat and direct sunlight. ColorFill requires no mixing so is easy to apply and is available in handy sized 25g tubes sufficient for one worktop joint.

ColorFill performs three tasks:

- Bonds the joint together.
- Seals the joint against water and domestic detergents.
- Colour matched to the worktop therefore making the finished joint appear more inconspicuous

Save time, mess and cost by using our brand new Artis Tilepanel. A range of four distinctive tile effect boards available in two sizes 3000x1210x8mm and 3000x600x8m.

Made from HPL laminate on an MDF core, the face is engraved to create a contrasting grout line and texture.

## Splashbacks, Tilepanel & Upstands

### Splashbacks & Tilepanel

Artis splashbacks are a stylish and contemporary alternative to traditional tiling in kitchen design. They are hygienic, easy to maintain and require no grouting.

Providing an inspirational look, Artis splashbacks come in a full sheet size for design flexibility so you can completely cover your wall space with minimum joints or install floor to ceiling where appropriate.

Artis splashbacks are installed with standard joinery procedures and with our range of textures and finishes, offer a practical and cost effective solution to bespoke glass, quartz or natural stone which require templating and specialist installation.

Splashbacks and Tilepanels should always be installed at least 130mm from a hob or heat source.

### Upstands

Create clean uncluttered lines between your wall and worktop with an Artis upstand. Used as an addition or alternative to tiling; upstands help to perfect the finish of your kitchen. Matching upstands are available across the full range of Artis worktops.

## Artis guarantees

Artis is guaranteed for its lifetime.

Artis will make good by repair and/or replacement (at its discretion) any Artis product of its manufacture which can be shown to have failed by reason of defects in its manufacture, subject to fair wear and tear, provided that the product has been installed and used in accordance with the manufacturer's instructions and that the products are used for their intended purpose.

Proof of date and place of purchase required.

This guarantee is in addition to your statutory rights as a consumer and does not affect your rights in any way.

## Advice on installation

Before proceeding with fabrication or installation work, please ensure that the Artis Installation, Care and Maintenance leaflet has been carefully read which can be located in the Artis worktop packaging, from your Artis dealer or on line at [www.artis.co.uk](http://www.artis.co.uk).

Products must be properly acclimatised and checked for quality prior to fabrication or installation procedures.

All stated dimensions are nominal.

## Quality, care & maintenance

### Quality

Manufactured with the finest materials, Artis Surfaces offer a stylish yet durable solution for everyday living.

Independently tested to BS/EN438, Artis work surfaces are designed to withstand knocks, abrasions, chemicals cigarette burns, steam, stains from juice, tea, wine or coffee. They are also highly resistant to heat, although we recommend the use of a protective pad or trivet as saucepan and casserole bottoms can become extremely hot. Please also avoid chopping and cutting directly on the laminate surface.

Artis select E1 grade high density particle board for strength and stability. Its homogenous construction generates excellent machining capability for sink and hob cut outs and mitred joints. Artis Original postformed surfaces have a cast resin drip edge to seal the underside against moisture penetration from every day spills.

### Performance Characteristics

Laminate surfaces are a practical and hygienic solution, however, please be aware that wear and tear is more visible on gloss and darker laminate surfaces. Additional care should be taken during handling, installation and use of these products.

Laminate surfaces with ABS or PP square edges are more susceptible to moisture ingress at the top and bottom of the factory finished edges. Although the adhesive used in their manufacture is moisture resistant, it is not waterproof; so extra care should be taken with these products and accidental spillages or standing water wiped up immediately.

### Care and Maintenance

Artis worksurfaces are so easy to maintain. On a day to day basis, all you need to do is wipe them down with a moist cloth and your favourite mild detergent.

For more stubborn marks such as fruit juice or coffee, leave the detergent to soak on the surface for a little while before rinsing thoroughly. Gloss and darker surfaces require buffing up to a shine after their normal wipe down to maintain their appealing looks.

Obviously your worktop can become damaged if mistreated, so we recommend some sensible measures like placing hot pans or casserole dishes on protective mats and mopping up spills quickly.

**Full details can be found in the Artis Installation, Care and Maintenance leaflet. These are included with every worktop purchased but if you need a copy, please ask your Artis dealer. All Installation Care and Maintenance guides must be passed on to the consumer as they form an integral part of the product guarantee. Incorrectly installed or poorly maintained products are not covered under the guarantee.**

Artis reserves the right to change specifications at any time without notice. Every effort has been made to achieve faithful representations of our product in this brochure but due to printing limitations, we recommend that samples of the actual material are requested before purchasing.

Our easy to navigate brochure with larger scale photography eases the selection process but we do recommend you view an actual sample of the material to appreciate the full beauty of our designs and textures.

Please contact us at [samples@artis.co.uk](mailto:samples@artis.co.uk) with your name and address details and we'll post you the sample of your preferred colour.
