

**LED Net**  
Michele de Lucchi  
Alberto Nason

## Alberto Nason

Born in Venice in 1972, Alberto Nason combines technical experimentation with creativity. With a native interest in glass, he has since 2001 dedicated himself to developing modern design objects predominantly for the home.

## Michele de Lucchi

Born in Italy in 1961, Michele De Lucchi designed the Tolomeo in 1987. The lamp now available in sizes from mini to mega is arguably Artemide's most iconic fixture. Having a background in architecture and industrial design, De Lucchi also favors a craftsman-like approach and since 1990 through the line "Produzione Privata," he has created a series of artisan-produced items such as small sculptures carved with a power saw.

## Technology

Led Net weaves energy efficient LED's, creating a web of direct light. Each LED "pod" features a methacrylate diffuser that adds warmth to this space-age light.

## Intricacy

Led Net's contemporary structural design shines bright with its intricate composition inspired by an imaginative, whimsical, and futuristic universe.

## Modular

To enhance modern interiors whether residential, hospitality or contract spaces, Led Net has the ability to be customized in single units or various patterns imagined by architects, designers, and customers to create unique interiors.
