

TL-UL350-CB

12 VOLT UP LIGHT

The Total Light Grizzly is the newest member of the spotlight offerings. This fixture was born from customer requests for a beast of a fixture. Installers wanted a fixture that would stand up to being bumped, stepped on, kicked, hit by weed eaters and landscape crews. The Grizzly is heavy duty, thick walled and able to handle anything from commercial installs to estate properties while providing perfect illumination to architectural features and landscapes. The fixture utilizes an MR-16 drop in LED lamp (sold separately) for a multitude of design options, beam spread and kelvin temps.
