

“Raw Skin Care” Organic Facial with New fruit Enzyme Smoothers”!

- **Purity Nourishment Organic Strawberry Enzyme Smoother** ... Perfect for acne and problematic oily skin; nurturing it back to balance and controlling oil production
- **Complete Balance Organic Banana Enzyme Smoother**... Perfect for most confused combo skins or between seasons when skin becomes unbalanced and congested
- **Perfect Comfort Organic Mango Enzyme Smoother**...Perfectly relieves dry skin’s uncomfortable condition, while nourishing it back to normal
- **Golden Nourishment Organic Pumpkin Enzyme Smoother**... Perfect between High Science peels and treatments, as well as a favorite natural strength replenishing facial for true natural anti-aging health

Facial Steps...

- Make up removal with Lip and Lash Makeup Remover, apply in spreading motion.
- First cleansing to remove make up by mixing several drops of the **Cleanser** with water in the small bowl, whip with fan brush, apply and massage on the skin.
- Remove with 4X4s or sponges, blot and do a skin analysis. Make recommendation here.
- Do a second cleansing but add one drop of **Skin Conditioning Serum** to super soften and lift all debris with a deep cleansing massage. Rinse well with warm water and soft cotton ending with a warm wet towel.
- Balance skin with a refreshing mist of **Hydrosol**
- Exfoliation with the **Fruit Enzyme Smoother**. In a small bowl measure ¼ to ½ teaspoon of **Fruit Enzyme Smoother**, add equal part with **Hydrosol** and mix into a smooth paste, apply to the skin, turn on the steamer. Apply thinly and let skin rest under steam for 5-7 mins or if the skin is neglected massage for three mins with steam... No more the 7 mins of steam.
- Remove with one Warm Moist towel & refresh with a mist of **Hydrosol**
- Optional-Prep for extractions: spreading a small amount of the needed **Nutrition Center Oil** on the areas of concern keeping the skin soft and warm for maximum results.
- After extraction mist with **Hydrosol** and use **High Frequency** to kill any bacterial spread from extraction.
- Facial massage is the most relaxing after extractions. Mix 3-4 drops of **Skin Conditioning Serum** with 1 1/2 pumps of the **Nutrition Center Oil**, place the oil in the palm and spread over the entire face, decollate, shoulders and back of neck. If you are only doing the face use less!
- After massage, leave **Skin Conditioning Serum** on & add more if needed for as a therapy serum. In a small bowl measure ¼ to ½ teaspoon of appropriate mask, add equal part with **Hydrosol** and mix into a smooth paste, add 3-4 drops of **Skin Conditioning Serum** to make the mask full bodied and to stimulate nutrition infusion. Leave mask on 5-7 mins/ no longer the 7 mins.
- Optional while the client is resting with mask, apply **Post Perfection** to hands and arms and perform a massage. Perfect added value...even more with a foot massage.
- After **Skin Mask**, take the second **Aromatherapy** infused warm towel and remove **Skin Mask**.
- Mist the skin with **Hydrosol**, apply **Organic Eye and Lip Organic Serum** and 2-3 drop of **Skin Conditioner** to rehydrate and condition skin with more protective nutrition.
- Apply Sunscreen.
- Now recommend your **Raw Skin Home Care**.

Cost per Facial Treatment: costs will vary matching your spas custom facial steps and culture. This facial with added options product cost (measured correctly): \$2.37; can vary up to \$4.95.
