

“Raw Skin Care” offers Organic Multi Fruit Liquid Enzyme, Organic Multi-Fruit Liquid AHA Exfoliant and Organic and Natural Dried Fruit Powder Enzyme Exfoliants all made from Organic ingredients, with all their vital components to be active while gently releasing all the great benefits of perfect exfoliation.

“Organic Multi-Fruit Enzyme Exfoliant & Organic Multi-Fruit AHA Exfoliant”

“Raw Skin Care” Organic Liquid Multi-Fruit Exfoliants are made by extraction with organic grain alcohol and de-ionized water for natural plant extraction. Our Organic Grain Alcohol is part of the distillation of fruit processing enhances the component properties of active energy, antiseptic purification and whole fruit tincture stability.

They are for external use only and do not have an aroma, making them perfect for blending with our new Natural and Organic “Fruit Enzyme Smoothers”.

“Organic Multi- Fruit Enzyme Exfoliant”

“Organic Multi Fruit Enzyme Exfoliant” acts like a natural alpha hydroxy acid, pre exfoliating post dead skin cells, leaving the skin flake free and smooth. These fruit enzymes are made from organic fruits, enhancing the exfoliating properties and formulated in certified organic glycerin for a super humectant environment, leaving the skin hydrated... making this a renewing blend.

Ingredients: Organic Carica papaya (Green Papaya) Extract, Organic Carica papaya (Papaya) Extract and Organic Ananas comosus (Pineapple) Extract and Organic Vegetable Glycerin

Why Papain...the protein dissolving enzyme “papain” can only be found in papayas. Papain is at its highest level just before the papaya ripens, while it is still green. Powerful papain enzyme dissolves dead and damaged skin cells. Papaya is great for blemishes, mature skin, flakey skin, large pores, and aiding in lightening sun spots. Some research shows that the enzyme papain is useful as an exfoliant where excess keloids have formed during wound healing.

Why Pineapple it contains the enzyme bromelain and alpha hydroxy acids (malic acid, citric acid, tartaric acid & glycolic acid). These wonderful benefits include anti-inflammation, skin digestive balance enhancement, neutralization to healthy ph, dissolving of dead tissue gently and all leaving the skin glowing with health.

Papaya and pineapple are great sources of proteolytic (protein dissolving) plant enzymes. Papaya and Pineapple give us nature’s capsulized formula to dissolve dead keratin and add balance to activity and ph control.

“Organic Multi-Fruit AHA Exfoliant”

“Organic Multi-Fruit AHA Exfoliant” is water soluble, which maximizes the stimulation of cell to renewal while minimizing irritation associated with the use of topical synthetic chemical alpha hydroxy acids. AHA’s loosen the top layer of dead cells (primarily composed of keratin) while on the other hand enzymes dissolve the keratinized layer.

Ingredients: organic lemons (citric acid & malic acid), oranges (ascorbic acid), cane sugar (glycolic acid & lactic acid), maple (malic), bilberry (malic acid & citric acid) and cranberry (citric acid & malic acid & tartaric & oxalic) containing naturally occurring alpha hydroxy acids (AHA’s) They are formulated with organic lime hydrosol for acid balance and cooling and Organic Vegetable Glycerin for locking in moisture unlike other AHA products.

Both Multi-Fruit Enzyme & AHA Exfoliants are available in a .50 Amber Dropper Bottle / 88 treatment / 4 drops ea. / \$00.40

Single Treatment 30 min Cost Ranges from \$1.60 to \$3.25 & Full facial treatment from 2.55 to 3.95.

“Organic Multi Fruit Enzyme Exfoliant” and Multi-Fruit AHA Exfoliant

- PH level of 4, skin natural pH is 7
- Can be used directly on the skin alone for up to 5 mins then rinsed off, mist with calming Hydrosol, apply appropriate Conditioning Serum to hydrate and end with non-chemical Sun Screen
- Can be layered under or mixed into one of our new **“Fruit Enzyme Smoothers”**
- Is water soluble, allowing each to be mixed with **Hydrosols** and Purified Waters, which is perfect for blending without the fear of stopping its action with total strength control
- Works great for the most sensitive skins and can be buffered with Pure Bare Smoother for extra gentle soothing
- No aroma, because No fragrance or aroma is added, so there is NO conflict with each collection and their purpose
- Multipurpose, diverse, great for custom exfoliation
- For deeper exfoliation use **Organic Multi-Fruit Enzyme** (for exfoliation of dead flaky skin cells) prior to **Organic Multi Fruit AHA** (for dissolving dead skin cells) 3-5 mins.

Easy Rules to remember for bothFacial Infusion:

- 4 drops for each layering and infusing mixed layers, it the perfect amount
- Leave on 5-7 mins
- When mixing into an **Organic Fruit Enzyme Smoother** do not add extra time, leave on 5- 7 minutes total (prepare ahead of application)
- Use steam with **Fruit Enzyme Smoothers** (always mix smoother as instructed and add 4 drops of the appropriate Liquid Exfoliant)
- Remember to know the exact skin sensitivity and type for treatment, as you can soften down the exfoliation % with your Organic Hydrosols (Hydrolates) or Purified Water
- Always have **Purely Bare Mask and Conditioning Serum** handy or prepare with treatment to buffer the treatment for very sensitive skins and calm down post redness right after exfoliation mask is removed

Advanced “Organic Multi Fruit Enzyme Exfoliant” and Multi-Fruit AHA Exfoliant ...TREATMENT Peel Steps:

- Remove make up with makeup remover and cleanse skin with appropriate cleanser twice
- After second cleansing, rinse well with warm water, mist the skin with the appropriate Hydrosol and dry with tissue in a gentle patting motion
- Fill small glass mask bowl with 4-8 drops of **Organic Multi Fruit Enzyme Exfoliant** and apply with clean dry fan brush avoiding the eyes. Apply organic eye oil to delicate eye area with a small delicate brush
- Leave on **3-5 mins (mild Peel) 5-8 mins (deep Peel)** and remove with cotton pads soaked with warm water, after complete rinsing mist the skin with the appropriate Hydrosol.
- Full facial option: Fruit Enzyme Exfoliant with steam, extraction, massage and or Organic Collection Mask (always mist between steps and watch for redness)
- Always finish with an application of Conditioning serum (4 drops mixed with ¼ teaspoon of the perfect organic center oil) and layer non-chemical Sun Screen
