ROUND BANGLE BRACELETS

How to find the perfect size for the round bangle bracelet

- Print and cut out the paper sizer on the following page and carefully read the instructions.
 - Make sure the side with the numbers faces upwards, instead of onto the skin.
 - Insert the pointed end through the opening you have cut at the other end of the Wrist Sizer where indicated [cut here].
- Place your paper sizer around the wrist as seen on the image of the following page. The correct point to measure your size is the largest width determined by your knuckles.
- The number that lines up with the edges of the opening is the size of the wrist.

You can also use a tape measure but if you do not have one, take any small piece of ribbon or cord. Wrap it around your wrist and measure the length against a ruler.

← CUT ALONG THE DOTTED LINE
BETWEEN THE TWO SINGLE DOTS

Important

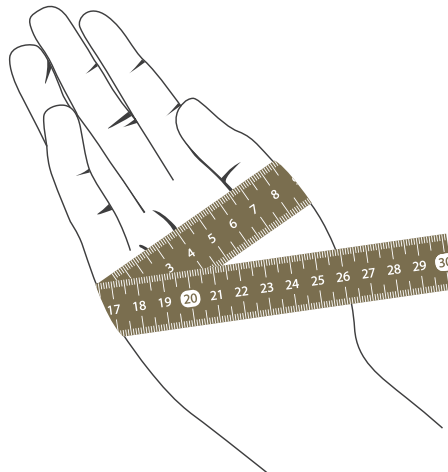

To ensure the right sizing on the printed version, please follow the instructions here below to obtain the exact measurements:

- Scale 100% (from the Preview application)
- Actual size (from the Acrobat application)

The file is optimized for the 100% scale print on A4 support (21 × 29,7 cm)

Attention

Please note that the correct point to measure your size is the largest width determined by your knuckles.

23 cm
9 inch
