RAISED GARDEN BED

4X8 Curved Terrace

Side view

Front view

KIT CONTAINS:
- Composite Straight timbers 4' x 16
- Composite Curved timbers 4' x 4
- Brackets x 40
- **Stacking Stakes x 20
- Plugs x 80
- Caps x 6

Layout your timbers along the borderline and connect each timber together by inserting the top of the stake through the bracket loops with the stake pointing to the sky. This enables you to freely position your border to get your desired location.

PARTS IDENTIFICATION

Stacking Stake

**NOTE
Stacking stakes can be used on all levels and when creating additional levels.
ONLY Stacking Stakes can stack!

Trim stake spike with hacksaw for use indoor or on hard surfaces

FOR INDOOR & HARD SURFACE:

If you plan to assemble raised bed on a hard surface, use hacksaw to remove the spike of each stake. Use these cut down stakes for the base level only of your raised garden.

ASSEMBLY INSTRUCTIONS

STEP 1:
Assemble the timbers by sliding one end of timber into channel end of one of the brackets. Use plugs to cover the holes on both sides to lock the bracket in place.

Repeat this process on the opposite end of the timber flipping the bracket in the opposite direction (see image). **Repeat for all timbers.**

STEP 2:
Layout the base level of your raised garden in a straight rectangular shape, using 5 x 4' straight timbers and 1 x curved timber. Insert stake through the hole of the bracket and into each of the corners to lock all sides in place. Repeat this shape for the 2nd level.

STEP 3:
For the 3rd and 4th levels, layout the level in a square shape, using 3 x 4' straight timbers and 1 x curved timber per level. Insert stake through the hole of the bracket and into each of the corners to lock all sides in place.

Lastly, add caps to each of the top corner joints to finish off the raised garden.

HAPPY GARDENING!

How the Joints Work

Use a Cap to complete the top level.

Use stacking stakes for ground level frames and stacking additional levels.

Use plugs to cover the holes – two plugs are required per bracket (1 on each side)

Use plugs (included) to cover the holes on both side of timbers

Use stacking stake when creating a multi-level

Stacking stake fit into the tops other Stacking stakes
