# RAISED GARDEN BED

## VERSAILLES SUNBURST

### KIT CONTAINS:

- Composite timbers 4' x 16 Curved
- Brackets x 32
- \*\*Stakes x 16
- Plugs x 64
- Caps x 8

 *Layout your timbers along the borderline and connect each timber together by inserting the top of the stake through the bracket loops with the stake pointing to the sky. This enables you to freely position your border to get your desired location.*

### PARTS IDENTIFICATION

**\*\*NOTE**  
 Stacking stakes can be used on all levels and when creating additional levels. **ONLY** Stacking Stakes can stack!

### FOR INDOOR & HARD SURFACE:

If you plan to assemble raised bed on a hard surface, use hacksaw to remove the spike of each stake. Use these cut down stakes for the base level only of your raised garden.

Customer Service: 1800-914-9835 | [support@frameitall.com](mailto:support@frameitall.com)

## ASSEMBLY INSTRUCTIONS

### STEP 1:

Assemble the timbers by sliding one end of timber into channel end of one of the brackets. Use plugs to cover the holes on both sides to lock the bracket in place.

Connect brackets to the curved boards in the same way as the straight boards while keeping the bracket pattern consistent with relation to the curve of the board.

### STEP 2:

Layout the base level of your raised garden in a circular shape, using 8 x 4' timbers **WITH THE STAKE UPSIDE DOWN**. This will allow the timbers to be angled easily.

Next push in every other timber to form a four-leaf clover shape. **NOTE: Do not secure stakes in ground yet**

Before flipping the stake around and hammering into the ground to lock the base level, line up the 2<sup>nd</sup> level to make sure the base level is positioned properly. Once the 2<sup>nd</sup> level is lined up, temporarily remove the 2<sup>nd</sup> level pieces and hammer stakes through brackets to secure base level.

### STEP 3:

Once base level is secured/lock, assemble 2<sup>nd</sup> level and the 4 (A) curved timbers should be facing outward.

**STEP 4:** Assemble 3<sup>rd</sup> levels with timbers facing inward. Because of the tight inward bends of the 3<sup>rd</sup> level, it's important to first place 2 timbers across from each other.

**Lastly,** add caps to each of the top corner joints to finish off the raised garden.

### How the Joints Work

### HAPPY GARDENING!

Use plugs (included) to cover the holes on both side of timbers
