Where wallpaper fears to tread

Composition® is the workhorse of acoustic wallcoverings. As a durable, high-performance alternative to paint and wallpaper, Composition maintains a rich, solid colour and soft, velvety finish regardless of what life throws its way. The hook-and-loop receptive pile and pinnable self-healing surface lends itself to creative and education focused spaces—a blank canvas for budding ideas and visual expression.

Made from 100% polyester fibre, Composition is available in a broad spectrum of colours to fit your design aesthetic.

Caring for the environment

Composition is manufactured using 100% polyester fibre and contains a minimum of 60% recycled fibre (from PET plastics). Our products are designed to be recycled at the end of their life too.

We have continual improvement programmes in which we implement a range of initiatives to mitigate the environmental 'hotspots' that we have identified. Our products are GreenRate Level A, Health Product Declaration (HPD), and CDHP Standard certified.

Composition is DeclareSM certified to be Red List free and can be used in Living Building Challenge projects. Autex has a high functioning Environmental Management System (ISO 14001) to enhance our environmental performance and contribute to sustainable development.

Declare.
