

Proposition 65

ABOUT CALIFORNIA PROPOSITION 65

We care about our customers' safety. Many of the products listed on our web site require a California Prop 65 warning as most are used to work raw wood which creates wood dust. Some products contain chemicals such as nickel compounds, acrylic dust and progesterone. Both Wood dust and these other chemicals are substances known to the State of California to cause cancer. California's Proposition 65 entitles California consumers to special warnings for products that contain chemicals known to the state of California to cause cancer and birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold levels. Because our web site lists multiple items per page, we are providing ample warning by providing the ability to obtain clear and reasonable Prop 65 warnings prior to completion of your purchase decision. We have further notified our vendors to be certain product packaging is clearly labeled with correct warnings if needed per Prop65 guidelines. For more information www.p65warnings.ca.gov or call 916-445-6900.

Consult with your physician before using this product if you have safety concerns. <https://www.p65warnings.ca.gov/search/progesterone>

Other Dusts

 **WARNING:** Power sanding, sawing, grinding, drilling and other construction activities can expose you to chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. Some examples of these chemicals are:

- Lead from lead-based paints,
- Crystalline silica from bricks and cement and other masonry products, and
- Arsenic and chromium from chemically treated lumber.

Your risk from these exposures varies, depending on how often you do this type of work. To reduce your exposure to these chemicals: work in a well-ventilated area, and work with approved safety equipment, such as those dust masks that are specifically designed to filter out microscopic particles.
