

HOW TO ASSEMBLE

YOUR SAN RAFAEL SAFARI CHAIR

Your package includes: one wooden chair frame and one leather chair cover.
You will not need any additional tools!

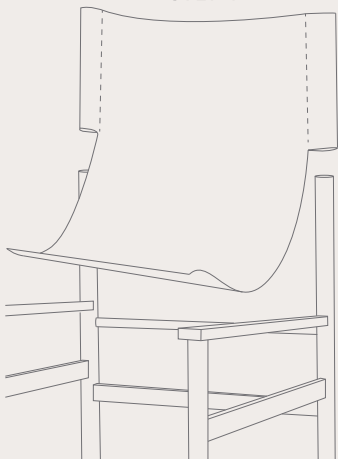

STEP 1: ATTACH BACK OF CHAIR COVER

Slide the two pockets on the leather chair cover over the two back frame posts. Try to keep both pockets level when sliding onto the back – trust us, this makes things go a lot easier.

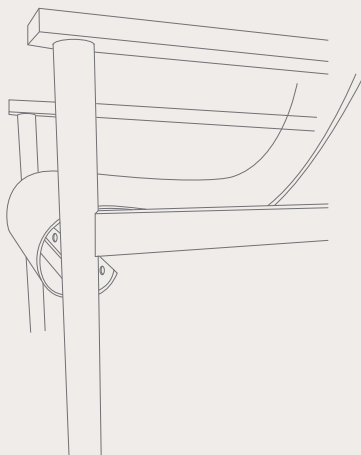

STEP 2: SECURE THE SEAT

Then, wrap the front edge of the leather cover over the front of the chair frame. Secure by attaching the holes in the leather cover to the pegs in the frame – just be sure you've got them aligned correctly. And there you go!
