

## HOW TO HANG

# THE SAN CRISTOBAL WALL HANGING

---

Your package should include 1 wall hanging - pieces already assembled.  
You'll also need to grab a drill and a nail from your tool box!

### STEP 1: "X" MARKS THE SPOT

Once you've found just the spot for hanging, use a pencil to mark the spot on the wall.

### STEP 2: TIME TO HAMMER

Hammer the nail into your pencil mark at a slight downward angle, leaving  $\frac{1}{4}$ " of the nail exposed.

### STEP 3: LET'S HANG

Hang your wall hanging by placing the large ring at the end of its chain on the nail.

Just like that, you have yourself one mighty fine wall hanging from Chile. Now, pour yourself a glass of wine and admire that impressive handiwork.
