

## HOW TO HANG

# THE SANTA LUCIA MOBILE

---

Your package should include 1 mobile - pieces already assembled.  
You'll also need to grab a drill and an eye hook from your tool box!

### STEP 1: "X" MARKS THE SPOT

Once you've found just the spot for hanging, use a pencil to mark the spot on the ceiling.

### STEP 2: TIME TO DRILL

Drill a hole into the ceiling at your pencil mark using a bit slightly smaller in diameter than your eye hook screw (not included). Then, hand screw the eye hook into the hole.

### STEP 3: LET'S HANG

Hang your mobile by attaching the large ring at the end of its chain to the eye hook.

Just like that, you have yourself one mighty fine mobile from Chile. Now, pour yourself a glass of wine and admire that impressive handiwork.
