Product Data Sheet

NOTE: The information in this publication is the result of careful testing in our laboratories, complemented by selected literature. It does not in any way constitute a guarantee, nor does it serve as a license to operate any patent. Due to widely varying conditions of product use, which are beyond our control, it is strongly recommended that the product be tested for suitability. Product typical properties in this publication are current.

BIODEGRADABLE TRACTOR HYDRAULIC OIL

EnviroTech® ALL-TRAC

EnviroTech® All-Trac is an environmentally responsible universal lubricant for farm equipment, off-highway machinery, and industrial tractors. This multifunctional biosynthetic fluid is designed for equipment requiring one lubricant for the transmission, final drive, wet brakes and hydraulic systems. It meets or exceeds the performance requirements of all major brands of farm tractors and other farm equipment that utilize a common fluid reservoir. EnviroTech® All-Trac is formulated with special friction modifiers to ensure proper operation of wet brakes and transmission clutch packs. The biosynthetic formulation provides superior oxidation resistance, excellent wear protection, protects against rust and corrosion, and has exceptional anti-foam characteristics. EnviroTech® All-Trac is classified as ultimately biodegradable (Pw1) and non-toxic, which makes it ideal for equipment operating in environmentally sensitive areas.

Physical Properties

| PRODUCT | ALL-TRAC |
|--------------------------------|--------------|
| Viscosity @40°C, cSt | 46.4 |
| @100°C, cSt | 9.82 |
| Brookfield Viscosity @-20°C | 1200 |
| @-35°C | 10.500 |
| Viscosity Index | 205 |
| Flash Point, °F, (°C) | 484 (251) |
| Stable Pour Point, °F, (°C) | -51 (-46) |
| Biodegradation Classification | Ultimate Pw1 |
