Eye contact:	Flush eye with water for 15 minutes. If symptoms persist, call a physician.
Skin contact:	Wash off immediately with soap and plenty of water. If skin irritation persists, call a physician.
Inhalation:	In the case of inhalation of aerosol/mist consult a physician if necessary. Move to fresh air.
Ingestion:	Do not induce vomiting. Drink 1 or 2 glasses of water. Consult a physician if necessary.
Most important symptoms and effect	cts, both acute and delayed

Symptoms No information available.

Indication of any immediate medical attention and special treatment needed

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:

Carbon dioxide (CO2). Dry chemical. Water spray mist or foam.

Unsuitable extinguishing media Do not use a solid water stream as it may scatter and spread fire <u>Specific hazards arising from the chemical</u> Keep product and empty container away from heat and sources of ignition. Water may be used to cool closed containers.

Explosion data

Sensitivity to Mechanical Impact None. Sensitivity to Static Discharge None.

Special protective equipment for firefighters:

In the event of fire, wear self-contained breathing apparatus. Standard procedure for chemical fires.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures **Personal precautions:** Contaminated surfaces will be extremely slippery. Use personal protective equipment. Remove all sources of ignition. Environmental precautions **Environmental precautions:** Do not flush into surface water or sanitary sewer system. Methods and material for containment and cleaning up Methods for containment Prevent further leakage or spillage if safe to do so. Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste Methods for cleaning up: container. 7. HANDLING AND STORAGE

Precautions for safe handling

Handling

Spilling onto the container's outside will make container slippery. Avoid contact with eyes and skin. Always replace cap after use.

Conditions for safe storage, including any incompatibilities

Storage Conditions

Keep containers dry and tightly closed to avoid moisture absorption and contamination

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Guidelines

Components	ACGIH TLV	OSHA (TWA mg/m ³):	IDLH:
Mineral Oil -	5 mg/m ³ (oil mist)	5 mg/m ³ (oil mist)	

Appropriate engineering controls

Ensure adequate ventilation, especially in confined areas. Engineering measures to reduce exposure:

Individual protection measures, such as personal protective equipment

Respiratory protection:	In case of mist, spray or aerosol exposure wear suitable personal respiratory protection and protective suit.
Hand protection:	Nitrile rubber
Eye protection:	Safety glasses
Skin and body protection:	Usual safety precautions while handling the product will provide adequate protection against this potential effect
General Hygiene Considerations	Avoid contact with skin, eyes and clothing
